OBJECTIVE

Seeking a gameplay programming or software development co-op starting January 2027.

EDUCATION AND AWARDS

Rochester Institute of Technology **Rochester, NY**
Bachelor of Science, Game Design and Development *Anticipated August 2027*

- GPA: 3.860
- Immersion in Japanese
- Recipient of the RIT Trustee Scholarship (merit based)
- Dean's List every semester (Fall 2024 - Spring 2026)

Queensborough Community College **Bayside, NY**
Coursework in Liberal Arts and Sciences (Mathematics and Science) *August 2021 - May 2022*

- GPA: 3.815

SKILLS

Programming Languages: C#, C++, JavaScript
Technical Skills: Unity, Netcode for GameObjects, Git, Visual Studio, Maya
Web: HTML/CSS, Chrome Extension APIs (Manifest V3)

PROJECTS

Douminuo (Chrome Extension)
JavaScript, Chrome Extension APIs

- Shipped and maintain a Chrome extension for smartnuo, a Korean competitive Pokémon site, with about 160 weekly active users and 470 installs over 12 releases since April 2026.
- Shipped live damage and bulk calculations covering about 60 abilities and 30 items, with one-click transfer to the site's damage calculator.
- Cut added server load to zero: copying a team went from up to 8 requests to none, and the first calculator run from about 100 PokéAPI calls to none.
- Restored every feature within a week after smartnuo's Nuxt 3 rebuild broke the extension (v1.3.0).

Trashpunk 2077 (Co-op Multiplayer Game)
Unity 6, C#, Netcode for GameObjects

- Own the space station and mission systems on a 7-person class team (IGME-320, Fall 2026).
- Synced station resources and repairs across up to four players with NetworkVariables, NetworkLists and server RPCs, keeping the host authoritative.
- Designed the round structure: two set opening rounds, then endless random rounds that ask for the station's scarcest resource and two repairs.

Touch the Grass (3D Environment Showcase)
Unity, Maya, C#

- Built a 3D environment from self-modeled Maya assets, with small textures to keep the scene light.
- Selected by professor as a future class example for 3D modeling/Unity workflows.
- Implemented post-processing effects and dynamic lighting in URP for a horror atmosphere.

EXPERIENCE

RIT Dining, The Commons **Rochester, NY**
Student Employee *August 2026 - Present*

- Work part-time food service shifts on campus.

Compulsory Service in Korean Army **Paju, Gyeonggi-do, Korea**
Infantry *September 2022 - March 2024*

- Received Company Commander Commendation for problem solving under pressure.
